What advice would you give to next year's 8th graders about studying for Spanish?

study hard because this is not a class you can just ignore, it is one of the most important calsses because it teaches you to communicate with other cultures.

quizlet

Study for the quiz's, exams, and tests. Start to study a day before the test day. Don't try to cramp everything in your brain the day of the test.

UsE yOUR NoTEs!!

You should always study every day just a little bit at a time. Also, you want to study with friends by having conversations, this will help you speak Spanish better.

no

go out and get active for example there was this hispanic festival that she sugested we go to and i didn't it would help a lot to go

That spanish seems hard but it is easy to do and the language is just like english. Also you will have fun. If you have a hard time in spanish or understand it Mrs. goorhouse will help you understand it. try to study the things you have difficulty and so you are ready for the test/exam/quiz. Also try to speak spanish on spanish speaking days if you can or are willing to.

STUDY!!!! it DOES help get in the habbit it pays off;)

Study with your parents ONLY if they know some spanish or have a general idea of how to speak it, otherwise stick to the blog study tools

never give you

Study. You think you won't need to but on large tests, quizzes, and exams. Some of the

studying can be fun. Study especially for exams. They count.

Even something like 10 minutes makes a big change

It is easier than you think! Once you learn a couple of words you will become more and more excited about learning more!

STAY PREPARED AND STUDY EVERY NIGHT!!! :) GOOD LUCK

study and make sure you pay attention to the basics

just try not to give up learning a different language his hard and hey if i can do it anyone can

study for all of the tests and the exams, because they are a lot harder than they seem

STUDY

Study before every test even if you think you know the material.

Participate study and listen itll help you for a better grade and underatanding spanish.

Use the blog, old notes, flashcards

Study hard and work really hard at it and you will succeed.

Study for test,quiz's,and exams. Retest for the tests and quiz's if you did bad on them.

Don't wait till the night before

Studying is a waste of time. You can get an a without studying if you're smart.

Pay attention every day! Everyday is important.

- I would suggest that they be given mandatory study time - More homework in spanish - Lots more fiestas!

try your hardest

study days before the test day every time

STUDDY alot

Don't just study the night before.

Study alot

i would do flash cards when i did them i found out that it helped me out a lot and also try to teach it to someone or something, it does not have to be someone but just something like you pet or something and also i would not wait for the night before i would study at least a week before. I am not a big studier i really hate studying but this is a high school class and will show up for jobs and collage

Study hard

i dont know i thought it was all really easy

Spanish is tons of fun! You will enjoy it so much! It's really easy as ling as you listen in class, if you listen and understand it in class you honestly don't have to study very hard.

It's awesome, Spanish is so easy(: You Will Love It !

None

study alot

Study for Spanish as much as you can otherwise you'll be screwed and fail really bad.

Even if you don't study, Use spanish in many places. You can be very successful very easy

My way to study is very different. I READ it. When I read things inside my head I can comprehend it better, like when you are reading your favorite story. So, I read, comprehend, then I take a break (usually long), then read the material again. After reading it, and after I feel that I'm ready to be quizzed, I have one of my family members quiz me to see where I am in my studies. In other words, I like to see what areas I need to put extra focus on. Also one of the biggest problems for my is getting distracted. I have to find ways to block people out and focus on my teacher and the material he/she is teaching. I learn very quickly that I need to know when and when not to ignore people. In the classroom when the teacher is teaching that is a time to block people out and focus. But, ignoring people outside of class is a bad idea. I know it feels rude to ignore your neighbor sitting next to you in class you has a question, you know the answer, but you need to pay attention to the teacher. But, you have to ignore them and PAY ATTENTION!!! I ignore a lot of people and sometimes I don't. Then I end up regret talking to them because I miss something important that the teacher said. Please learn from our mistakes and ... PLEASE TAKE SCHOOL SERIOUSLY!!! IT WON'T BE HERE FOREVER!!!

Start studying as soon as you can instead of waiting until the night before..

USE QUIZLET

Study the notes

I think they should study because it helps them improve a lot

Study a little for each quiz.

Study, listen in class, Participate in dias de espanol

Study for exams!!

To use flash cards and parents. And always remember that even if you think you got it, just practice because when nerves kick in, you might forget some things

The blog

The notes are very helpful when studying. The flashcard weren't very helpful, but if you listen in class and then try to comprehend what you are learning, you'll do perfectly fine.

I rarely ever studied and I still passed

Be careful with spelling and neatness.

Listen carefully and ask questions about what you don't under stand about Spanish.

take german!

Use quizlet.

Pay attention in class when you are group studying. Study at home too.

you will ace this class

Do it a lot

Studie ur gonna need it

Remeber your book to study(its the easiest)

STUDY!!!!!!!!!!!!!!!!!!!!!! HAVE FUN!!!!!!!!!!!!!!!!!!!!!!

take german

study

If you arn't confident then study. It helps if you study what you don't know and ignore the stuff you know very well. It wastes time to study stuff you know.

If you are a hispanic like me then this class is easy for you!

The more you study and speak in Spanish the easier it will get.

Pay attention, and do not. I repeat DO NOT make fun of people for mispronouncing words and not understanding. They are learning a new freaking language. Chill.

pay attention in class

Do not take it it is very hard and don't lose your book

i would study for everything even fi you think that your good

don't be here when you watch frozen

good luck

make sure you pay attention in class because if you do its easy to pick up on all of the things you need to learn and when you have dia de espnol make sure you practice speaking spanish

to let them retest if wanted or could improve

um study off the notes

make sure to study your notes the most

The games on the site work well, but i usually just went over the packet with a sibling or friend. They would read the word in english/spanish and then i would translate the word to english/spanish.

Study by making flashcards and things review them even after you take the quiz/test/exam because then it will be easier for later in the year or other quizzes/test/exam

DO IT!!

use notes and old tests to help to write and understand it

I wish that everybody who has taken Spanish or is going to take Spanish has/had a great time

Study the conugations

- study for exams and tests because they count for highschool - if you listen in class it helps - don't forget to have fun

no ll don't have any thiing two 2ay

- Study for exams *they count for high school, kinda a big deal:)* - Study with a friend or family - Speak spanish out loud when studying (I heard that helps with understanding)
- Ask questions

Study for every test, quiz, exam that you have to take

Listen in class and remember everything so you do not have to study

Study a lot especially for the exams

That you have to study to do good on the tests and quizzes.

Use the Spanish blog

If you struggle, study a lot.

Try hard, study things you struggle with.

pay attention in class and study for exams and ask questions when you have one

idk

nothing it is good the way it is.

Instructions on how to find things. haha :) Also I have limited internet so I can't be on the computer and on the class blog a lot because we need to save our internet for more important things. I know school has changed from how it has been, but I really don't like how much internet our schooling requires now!!! I also know that paper work is also harder for the teacher, but paper work may benefit students. Let's say they don't have internet and they have to a project on the computer. Then what do they do? So, I think I got my point across and I just want to say that I had a awesome time in Spanish this year!!! :)

Nothing, keep it the same
